Requests for exceptions should be directed, in writing, to the Assistant Dean of the Residential Center. Withdrawal from housing does not warrant a refund unless the student meets all three of the following conditions:

1. Does not register at Bentley University for any courses, graduates, is on an internship, or is dismissed for academic reasons,
AND;
2. Informs the Residential Center through the ga_housing@bentley.edu account no later than December 5, 2014 for the Spring Semester,

5. It is the responsibility of the student to drop or change their Meal Plan through MyBentley. Once the semester begins students are charged for the number of days they have been on the plan regardless of use.

6. Students remain financially responsible for the Meal Plan until the student communicates through MyBentley that they wish to modify their Meal Plan. Board payment is refundable, but other charges may still apply.

7. Discretionary Money does not rollover to the next semester.

V. PERSONAL PROPERTY LIABILITY AND INSURANCE:

The University will assume no liability, directly or indirectly, for loss or damage to personal property by fire, flood, theft, or any other cause. Every resident is encouraged to review his/her family personal property insurance coverage and to obtain appropriate coverage.

VI. TEMPERATURE & UTILITY CHARGES:

The University operates several types of heating and cooling systems for its campus buildings which are upgraded on a continuous basis. As such, a Temperature Policy has been created to communicate the parameters and local controls, where available, of these systems to all community members. This policy also specifically outlines the heating and
cooling controls in residential buildings and provides information for occupants with local controls on how to make adjustments to their heating and cooling system.

The primary objective of any heating and cooling system is to create a reasonably comfortable living and working environment, while balancing the need to economize and use resources wisely. Using energy responsibly by standardizing temperature set points will reduce greenhouse gas emissions and will offset increases in utility costs. To increase the efficiency of our heating and cooling systems, the HVAC units in all of Bentley’s residence buildings are set to an automated cycle system. The units are set to turn on if the outdoor air temperature is less than 61 degrees F or more than 75 degrees F.

All Housing rates include an estimated energy (utility) charge. In the event that the cost to the University for resident-related utilities is higher than the amount budgeted for these utilities during the academic year, the student agrees to pay any energy surcharge imposed by the University to cover this increase in cost.

VII. OTHER INFORMATION:

The Bentley University residential program seeks to create safe, civil, and all inclusive communities that foster the personal and intellectual growth of each individual. Students who live in university housing have certain freedoms and responsibilities.

Regulations exist which are consistent with the educational purposes of the residential area. The residential environment requires those sharing a living unit to be both cooperative and considerate. Bentley University does not discriminate on the basis of age, race, color, gender, sexual orientation, disability, religion, national and ethnic origin or veteran status.

HOUSING AGREEMENT ADDENDUM

I agree that if I choose/or am assigned to the Residence Halls below, I will abide by the additional regulations for the type of housing indicated. I understand that if I fail to follow these guidelines I may be required to move.

Quiet Housing (North Campus Apartments)

1. Out of respect for its residential neighbors, Bentley has designated North Campus as quiet housing. Parties may not be registered in these buildings.

2. All other university policies and rules are in effect.

Roommates of Residents Assistants:

1. If I select, or am assigned to a Resident Assistant apartment/suite/room, I understand that the Residential Center retains the right to change my room assignment to ensure the proper functioning of the Residence Life staff structure. If an RA resigns, participates in an education abroad program, graduates, or leaves the position for any other reason, the roommates of the RA may be required to move to a new assignment.

By submitting this contract, I agree to pay, for the accommodation to which I am assigned and the meal plan I choose. In addition, I accept and agree to abide by all terms of the agreement, all University rules and regulations, including those found in the Student Handbook, and those rules and regulations that may be subsequently implemented.

I UNDERSTAND THAT THIS CONTRACT, WHILE PAYABLE BY SEMESTER, IS FOR THE ENTIRE 2014-2015 ACADEMIC YEAR
