Management

Management majors develop skills crucial to managers in the knowledge economy. These include critical thinking, effective communication, interpersonal competence, and the ability to lead. Majors also learn to diagnose organizational issues in a way that reflects an understanding of multiple, interacting levels of organizational analysis, including current environmental and global forces.

With only three required courses, the Management major provides flexibility within the MG electives and management-related electives for students to attain a broad, general managerial education, or focus on a more narrowly defined area of management such as human resource management, entrepreneurship, global business management, and technology management.

Required Courses

1. MG 240 Interpersonal Relations in Management
2. MG 345 Organization, Society and Responsible Management
3. MG Global Elective (see below)
4. MG/PRS Elective
